4. Evaluating Progress Toward Measurable Goals MCM 1

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

Our goal was once again to increase the quantity, variety and methods by which we delivered public education materials to the citizens of Manorhaven. Through our active membership in the Manhasset Bay Protection Committee, we sought out new audiences and new ways to reach the public. For example, in addition, to helping staff information booths, we participated in outreach through boat tours of the Bay and Lectures.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The public had easy access to a variety of information in the village hall, Residents attending monthly meetings were given information and attendance at local festivals was strong. This provided an opportunity to reach many people about storm water.

C. How many times was this observation measured or evaluated in this reporting period?

			4
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this Measurable Goal during this reporting period?
☒ Yes ☐ No
E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?
☒ Yes ☐ No
F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The village is planning to educate the public through the development of a walkway on the preserve adjacent to Manhasset Bay. In addition, we will have an Earth Day event to continue the previous two events that were held 4/30/11, 4/21/12 and 4/20/13.

For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program (SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
